Q. What to do when someone in the family has passed away?

A- If the death occurs during the day, call ICLI Office. If it happens after the Office is closed, call Habeeb Ahmed or Zaheer Bhatt.

Q. How to begin the Funeral Arrangement?

A- Funeral arrangement detail sheet requires the information of the deceased including the age, date of birth, legal address, phone number, place of birth, social security number, father's first & last name, mother's first & maiden name, place of death, next to kin name-relationship-address & contact info.

Q. What should we do if death occurs at home, hospice or if it occurs at hospital?

A- If death occurs at home, call 911. The Emergency responders will take the body to the Medical Examiner's Office. The Medical doctor pronounces death and gives a death declaration certificate signed by the doctor.

B- If death is hospice related, the RN or Doctor of the person certifies the death, and the body is brought to ICLI.

C- When the body is released from the Hospital/Hospice, Funeral Services brings the body to the Islamic Center for Bathing, Shrouding and Janazah Prayer. If death occurs at the hospital, the body is released from the hospital after the death declaration certificate is issued by the doctor. The Funeral Services will bring the body to Islamic Center for Bathing, Shrouding and Janazah prayer.
